Milano son WF 8/12

Milano son WF 8/12

This stag was retained from the 2011 sale line up to enable us to keep developing our antler structure in our Eastern herd. At three he grew a very impressive multi point head, 35 inch inside span.

His head is very wide with good length plus he has very good body weights and gives us other options being a Milan son. We are excited with the young progeny Milano has produced to date.
