## Heinrich VI is an unbelievable antlered Eastern sire.

Originally from Stanfield Stud Heinrich VI contains some of the very best Eastern genetics available in Heinrich, Maximilian, Alexei and Nicholai. His strength is his incredible antler, at 5 years of age he was a remarkable 56 inches wide, 47 inches long, 12.5 kg HA and scored 469 SCI.

His progeny continually show us the same wide heavy antler characteristics.

We continue to breed with Heinrich VI with the limited semen stock we have available.
