

# BIG DON

Shown at 5 years  
European

Big Don was retained by Wilkins Farming from our 2016 born progeny. This stag has tremendous depth to his pedigree dominated by Doncaster breeding.

Shown at 2 years

Big Don was bred from some of our very best genetics. This stag has exceptional growth rates and a 2 year sale day live weight of 280 kg. His W12eBV of 25.13, eye muscle of 35.35 and estimated loin weight of 4.85, sees Big Don as a serious venison producer. His CT scanning results are extremely impressive reinforcing his venison traits, scanning NO. 1 for the 3 key measures of loin weight, lean/CWT, and yield/LWT percentage.

He boasts a tremendously thickset body and is extremely quiet in nature which can be seen across his progeny.
