Netherdale was purchased from Netherdale red deer stud in January 2024. Sired by Bronx out of hind sired by a stag referred to as 'No 1', Netherdale combines phenomenal velvet genetics and notable growth rates for this type of animal.

He has an impressive growth from weaning at 64 kgs through to 130kgs at 12 months.

His velvet has beautiful clean, even tyne placement with good length and roundness in the beam, for which he was awarded 3-year champ, overall champ and people's choice at the 2023 NZ velvet awards — a significant accomplishment to win the three most esteemed awards at once!

We will breed strategically with Netherdale to enhance our herds overall velvet performance.

Cardrona is rated as one of our top sires. He delivers top growth rates and awesome velvet.

Sired by John Scurr's 403 (a stag with serious trophy traits and wow factor), Cardrona was bred at Netherdale from an English hind.

As indicated below, aged 3 years (sale day) Cardrona weighed 258 kg and cut an impressive 6.2 kg of SA2 velvet. As at April 2019, his W12eBV result of 10.5 is solid for this type.

Cardrona remains a strong and influential part of our herd, and his dominance in our breeding programme continues to be significant with good body, great nature and very clean beamed traditional velvet.

Rock Me has it all. He is an impressive stag that delivers well on all key traits.

He is sired by Amadeus, a Pure German who was bred by Foveran. Foveran described Amadeus as "the most amazing 2-year-old stag ever produced". Rock Me's dam is sired by Steinlager, bred by Black Forest and goes back to Colin who is a Festl Park German Sire. All in all this impressive breeding delivers a 7/8th German/English.

Impressive growth rates achieved which are rarely seen for this type. 148 kg at 15 months of age, and 244 kg at 2 years (sale day). These factors influenced our purchase of this stag from Brock Deer, and as at October 2019 Rock Me's W12eBV was +8.7.

In addition, Rock Me offers outstanding antler, as you will see from the photos and data below. For example, at 2 years his velvet was estimated to be in excess of 6 kg. In December 2014 Rock Me cut an impressive 3 year old head of 14.8 kg OG velvet, along with 20 kg of OG velvet as a 4 year old.

Rock Me's influence within our European and Maternal breeding programme cannot be underestimated with some of our best bodied and velvet antler animals sired by Rock Me.
