Infinity is an impressive English/German stag featuring outstanding antler attributes.

He is sired by William John out of a Wredeson hind. Wilkins Farming Co purchased his dam FOV 3996/03 while in calf from the Foveran hind sale, and Infinity was her resulting progeny. The incredible depth to his pedigree is testament to the stag he grew into.

At 5 years of age Infinity achieved an outstanding 612 inches of antler as highlighted in the table below.

We are continuing to breed strategically via AI with Infinity over our English/German hind base and are continually impressed by the progeny he leaves.

| AGE | YEAR | BODY WEIGHT (kg) | VELVET (kg) | GRADE |
|---------|----------|------------------|-------------|-------|
| 5 Years | 2012 Jan | 302 | 612 | IOA |
