Maternal/Velvet

Shown at 3 years

Maple was purchased from Brock deer in January 2019. Sired by Parker out of an Everest hind, this stag combines some really exciting velvet and growth rate genetics.

He had a notable live weight at weaning in April of 83 kg and his velvet head has incredible beam and tops. Maple cut an impressive 6.7 kg of SA2 at 2 years. He has a deep red coat colour, an impressive body, temperament.

We breed strategically with Maple for both body and velvet, and continue to be impressed by the genetics he delivers within our stud.
