Mapleson (962/18) was purchased from Brock deer in January 2023. Sired by the notable Maple out of an well performing Oakley hind, this stag presents with really exciting velvet and growth rate genetics.

Mapleson possesses an outstanding velvet head with an incredibly thick beam and clean tops, combined with good growth rates. He cut a solid 5.55 kg of A2 velvet at 2 years of age and 8.01 kg at 3 years, not surprising given his sire is the outstanding Maple.

Mapleson is a true reflection of his sire and his excellent velvet attributes.

We are anticipating great results from this stag given his sire Maple's influence in our herd to date.
