**STO 194/12 is a pure English stag with exceptional body weights for this type.**

A key influencer behind the purchase of STO 194/12 was his huge 15 month live weight of 154.5 kg. He's the biggest Woburn bred at Stanfield for 15 month weight.

The combination of genetics behind this stag provides a solid foundation to breed top all-round velvet and growth rate English sires.

We are using STO 194/12 to breed strategically in our maternal breeding programmes.

STO 194/12 is showing promise to date and we are looking forward to his positive influence in our herd.
