

TRUMAN

Shown at 5 years
Velvet/Trophy

Shown at 3 years

Truman was purchased ex Matt Ross of Kokoamo Red Deer at 5 years of age in January 2024, bred by Crowley deer.

Impressive stag at 3 weighing a solid 232 kg on sale day which is the top end of sale weights at Crowley deer.

Impressive clean lower tyne, solid beam that has good length between his bez and trez, shows good velvet potential as well. Combined with his antler structure this sire is a very eye-catching animal.

We are excited about the introduction of Truman's wow factor and performance into our trophy and velvet breeding program.

AGE	YEAR	BODY WEIGHT (kg)	VELVET (kg)	GRADE
1 Year	2019			
2 Years	2020			
3 Years	2021	232	535	HA
